OUR EARTH OUR HOME

The project "Our Earth,our home" aims to form awareness in the students of the caring for importance of planet our protecting the environmental. The project cultural aims to promote the European heritage, inclusion of disadvantaged, working in multicultural teams, using the care for our Earth link, promoting English, as а developing the European dimension of schools.

The schools partners are:

New Cross College, Dublin, Ireland,

Obchodniakademie a Jazykovaskola s pravemstatnizkousky, Písek, Czech Republic, IIS ORSO MARIO CORBINO, Partinico,Italy,

XIV Liceum Ogólnokształcące w Poznaniu, Poznań,Poland,

"Regina Maria" Dorohoi, ROMANIA, Denizli Lisesi, TURKEY.

Let's save the planet

Environmental education provides important opportunities for students to become engaged in real world that issues transcend classroom walls. They can see relevance of the their classroom studies to the complex environmental issues confronting our planet and they can acquire the skills they'll need to be creative problem solvers and powerful advocates.

Environmental education benefits students, schools, and our larger world.One of the most glaring problems which the world faces today is the environmental pollution. Man exploited has nature excessively at the cost of the environment. There is an immediate need to make people about aware environmental degradation. Education public and participation may change and improve the quality of environment.

New Cross College, Dublin, Ireland

Our school is a mixed sex, catholic secondary school based in North Dublin, Ireland. It has pproximately 200 students.

It is located in an area of considerable economic and social deprivation .It is a relatively new school, opening our doors for the first time in September 2015 as a result of two schools merging.

Our students have created a number of projects, displays and exhibitions on Global Warming, Pollution, Recycling, Sustainable Energy and Conservation.

"Regina Maria" Dorohoi, ROMANIA

Regina Maria" High School is an educational institution with 980 students at the Theoretical Branch and Technological. The high school is located in the NE Region of Romania , recognized in the normative acts as one of the poorest regions in Europe. The city of Dorohoi is located on northern border with the Ukraine, a peripheral region of Europe. Our students have special requirements given their economic situation. They mostly come from poor environments. Our student have been part of multicultural teams, have learned to communicate in various European languages have discovered the importance of a positive attitude towards others. Our student have been trying to raise awareness on the importance of having a clean and safe environment.

Denizli Lisesi, TURKEY

"Denizli High School" is the oldest high school in Denizli with 1580 students and 90 teachers work in our school including the director and 4 vice directors. Thanks to being home to lots of different populations in history we have very rich heritage coming from these cultures. Here is a real pot where different cultures have been mixed, so we are a multicultural team.

Some of our students have very low living standards as some of their parents are unemployed or have low fee that makes their lives tough.

Denizli is very industrialized region; there are hundreds of factories producing different items from textile to marble. That makes our region vulnerable to pollution.

We want our student them to integrate with others students and in this way they can both improve their language and produce different solutions to environment.

ISTITUTO ISTRUZIONE SUPERIORE ORSO MARIO CORBINO Partinico Italy

Our school is a professional institute with about 120 teachers and 820 students, operating for 25 years in our territory.

The school is located in Partinico, about 30 km from Palermo, Sicily.

In reference to the social context of our town, the level of unemployment is very high. The main task is to intervene evaluing every culture regardless of the social contexts in which it manifests itself, respecting itof the cultural identity of each one and to guide the students in search of values linked to human rights, to thepeace and respect for others

XIV Liceum Ogólnokształcące w Poznaniu, Poznań,Poland

Our school It is situated in the centre of Poznań, in Rataje .

The teaching staff consists of 55 members. Students can choose from three foreign languages: English, German and Russian. There are 19 classes in the school. The school has efficient wireless internet connection both for students and staff members. Each classroom is equipped with a computer and an overhead projector.

Our students are talented athletes who, over the last 25 years, have achieved numerous successes in various disciplines. We want to encourage young people to identify with this planet and we would like to make them feel at home on earth. To do that we should engage students in all possible activities that would make them care more for the environment.

Obchodniakademie a Jazykovaskola s pravemstatnizkousky, Písek, Czech Republic

Our school is situated in south Bohemia and has 240 students and approximately 24 teachers. Students are from different social background, most of them are commuters from nearby villages and belong to middle class or lower middle class families. The subjects taught in our school are Inglish and German, Economics, Accountancy, Information Technology and science.....

The location of our school is very convenient not only for Písek resident students but we are the only school with economic and scientific specialization within the range of 50 kilometres. Our town Písek is situated in the south of our republic and 100 kilometres from our capital Prague 2.

Activity 1 (OCTOBER 2020)

- SCHOOL VIDEO PRESENTATION

Each partner school prepared a video presentation of their school and some of the students who will be part of the project presented themselves. We had the opportunity to get acquainted to the inside of each partner school, to their curricular and extracurricular activities.

Activity 2- ERASMUS DAYS ACTIVITY

During the Erasmus days some of our partners organised activities to promote our project in their school and in their community. The Polish partner showed our school videos to her students and all partners made noticeboards about it which were made visible for students, teachers and parents.

The Irish and Romanian partner organised an online meeting between students where the Romanian students shared their Erasmus experiences to the Irish ones and answered their questions. This activity was meant to show them the beauty of being part of such a project since they have never had the opportunity to be of one untill now.

Activity 4– Global education week activity –launching our newsletter

For this year's Global Education Week our students worked in international groups and wrote articles on four important environmental issues : pollution, overpopulation, climate change and deforestation. The result is a newsletter presenting the problems our Earth is facing with and possible solutions.

"Regina Maria" Dorohoi, ROMANIA

Activity 5 -Logo competition

Students were presented the logo competition rules.

How to Enter

1. Entries must be submitted by email to the coordinator at your school. If it is digital format, the image must be in 1400 x 850 pixels and 300 dpi dimension and should be submitted as a scalable vector graphic in .svg (ink scape program) or .cdr (corel draw); and also as a JPG or PNG. If drawn, make sure the format is A4 and you use primary colors.

2. The email or the sheet must include the name, age, postal address, school and email address of the Entrant.

3. No more than 1 design may be submitted by any one Entrant.

4. The deadline for entries is November 27th.

Submission Guidelines

The purpose of the contest is to design a logo for project **OUR EARTH, OUR HOME.**

The content of the logo should depict the themes of the project:

- · Environmental and climate goals
- Social inclusion
- · Cultural and historical heritage
- Promoting internationalisation
- ICT new technologies digital competences

Enhance European Culture and countries cooperation

The logo will be used online, in print, and on the material used for the purposes of the project activities and dissemination.

The logo must contain the title of the project:

Each partner schools prepared logos from which the project team selected only 2 for the final competition.

Photos of the 12 final logo choices

The winning logo photo

Merry Christmas & A Happy New Year!
